### Unit – 3 : Session – 7 : SLO – 1 | FCFS Numerical Problem — Library System Case Study

#### Answers

1. Gantt chart (FCFS): | S1 | S2 | S3 | S4 | with boundaries 0, 4, 7, 9, 14.
2. S1: waiting 0, turnaround 4. S2: waiting 4 - 1 = 3, turnaround 7 - 1 = 6. S3: waiting 7 - 2 = 5, turnaround 9 - 2 = 7. S4: waiting 9 - 3 = 6, turnaround 14 - 3 = 11.
3. Average waiting time =  $(0 + 3 + 5 + 6) / 4 = 3.5$ ; average turnaround time =  $(4 + 6 + 7 + 11) / 4 = 7.0$
