

Unit – 2 : Session – 5 : SLO – 1 | Structured Programming Order

Activity (Solution)

Correct logical order:

1. `import java.util.Scanner;`
2. `Scanner sc = new Scanner(System.in);`
3. `System.out.println("Enter marks: ");`
4. `int marks = sc.nextInt();`
5. `if (marks >= 50) { System.out.println("Pass"); }`
6. `System.out.println("Fail");` // ideally placed in an else block: `else { System.out.println("Fail"); }`
