

Unit – 2 : Session – 11 : SLO – 1 | Interfaces

Activity – Match the Following (Answers)

1. `interface Engine { void start(); }` → Interface declaration
2. `class Car implements Engine` → Class implementing an interface
3. `public void start() { System.out.println("Start!"); }` → Method overriding (implementing the interface method)
4. `Engine e = new Car(); e.start();` → Polymorphism via interface
5. `class Phone implements Camera, GPS {}` → Implements multiple interfaces
